## **Label ARAMAV: the study carried out by the clinic ARAMAV validates the usefulness of the app « Word Speaking Vocal Crossword » in orthoptics!**

« ... On a purely re-educational level, « Word Speaking Vocal Crossword » is a tool allowing, from a pure orthoptic point of view, to combine the work of visual fixation and conjugate motor skills via saccades in the first place, but also to approach eye/hand coordination thanks to the tactile tool, whether on a tablet or a telephone ... »

«... In the end, « Word Speaking Vocal Crossword » has obtained the ARAMAV label because it presents a very interesting alternative that complements low vision orthoptic rehabilitation, while allowing the patient to continue to work independently.»
